

REMARKS

This case has been carefully reviewed and analyzed in view of the Official Action dated 14 November 2005.

In the Official Action, Claims 1 – 4 and 6 were rejected under 35 U.S.C. § 102(e) as being anticipated by Wu et al., U.S. Patent Application Publication 2005/0168924; and Claim 5 was objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Accordingly, Claim 1 has been amended to incorporate the subject matter of Claims 4 and 5. The allowance of Claim 1, as amended, is believed; and the same is respectfully requested.

In the Official Action, Claim 6 was objected because of a minor informality found therein. Accordingly, Claim 6 has been amended to correct the error found therein as suggested by the Examiner.

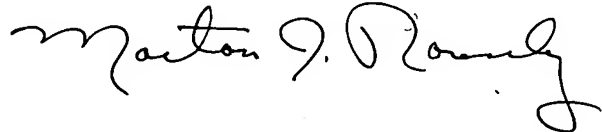

Claims 4 and 5 have been cancelled without prejudice to incorporate the subject matter thereof into Claim 1.

Claims 2, 3 and 6 are dependent upon Claim 1. It is believed that these Claims 2, 3 and 6 each adds further limitations that are patentably distinct in addition to being dependent upon what is now believed to be patentable base claim, and therefore, allowable for at least for the same reasons.
